WA Peer Supporters Network
Your place to connect, learn and grow.

What is Peer Support?

Peer Support is between people with a similar life experience and/or identity. Peer Support uses the power of empathy and understanding from a shared experience to connect, grow resilience and enhance wellbeing.

Seventh Global Celebration Day!

Global Peer Supporters' Celebration Day was founded by the International Association of Peer Supporters. The day aims to raise awareness of Peer Support and celebrate the difference that Peer Support makes in our lives and communities.

About the WA Peer Supporters' Network

WAPSN is a not-for-profit, community network led by Peer Supporters. We promote and help to grow Peer Support through information, advice, education and events for Peer Supporters, services and the broader community.

Join us and show your support!

The Network is free to join! Contact us on 9258 8911 or info@peersupportwa.org.au
